imitator X-Sleepy-X: you said how? bcx: jup. rypervenche, and you are correct that this channel is for technical support only, not an open chat channel. bcx: i've done it with ubuntu as well but in this case i'm on a live usb. X-Sleepy-X: What is this live usb? it starts to download then stops - any ideas? bunjee: sudo apt-get clean && sudo apt-get upgrade && sudo apt-get update ok, I'll try that - thanks bcx: i already stated that X-Sleepy-X: ok X-Sleepy-X: have you got chroot? bcx: probably not but i'll try now it says i'm already up to date ... bunjee: you are already up to date? bunjee: And what about the apt-get update command? bcx: no it doesn't work it only says no such file or directory and when i try to go back to the menu it says no such command. bcx: "no such file or directory" is not an error. bunjee: We want to see the output of those commands. bcx it says update didn't have any packages to install bunjee: Which "didn't have any packages to install"? bunjee: Which "didn't"? it says update didn't

have any packages to install *bunjee: bekks it says 'update didnt have any packages to install' bunjee: And what about the output of the commands I told you? bunjee: And which 82157476af
